**DETAILED ACTION**

Claims 1-9, 11-13 and 18-27 are pending in the application.

***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-9, 13, 19, drawn to products of formula (I) and formula (X).

Group II, claim(s) 11, drawn to process of making.

Group III, claim(s) 12, drawn to process of making.

Group IV, claim(s) 18, drawn to products of formula (II).

Art Unit: 1626

Group V, claim(s) 20-27, drawn to method of using products of formula (I).

The claims herein lack unity of invention under PCT Rule 13.1 and 13.2 since the compounds defined in the claims lack a significant structural element qualifying as the special technical feature that defines a contribution over the prior art. The compounds claimed contain a phenyl ring attached to a furanyl ring (see especially instant claim 18) which does not define a contribution over the prior art {see the compound of CA Registry No. 39170-33-7 found in Oleinik et al. (CA 78:43169, 1973)}. The substituents on the structure vary extensively and when taken as a whole result in vastly different compounds. Accordingly, unity of invention is considered to be lacking and restriction of the invention in accordance with the rules of unity of invention is considered to be proper.

Art Unit: 1626

Additionally, the vastness of the claimed subject matter and the complications in understanding the claimed subject matter imposes a burden on any examination of the claimed subject matter.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
